

## Learning at home

### Make a Goldfish Kite together to celebrate Chinese New Year

#### You will need:

Gold card  
Orange tissue paper  
Glue  
Wiggly eyes  
String  
Stapler

Or improvise with your own resources!

#### Instructions:

- Roll the card into a tube and staple in place.
  - Cut strips of tissue paper and glue or staple them to the inside of one end of the tube.
  - Cut two 'fins' from tissue paper.
  - Stick on the fins and the eyes.
  - Punch a hole either side of the goldfish's head.
  - Cut a short length of string. Tie one end to each hole to make a loop.
  - Finish by tying a long length of string - by which to fly the kite - to the loop of string.
- o Add your own observations of making your fish to your child's 'Tapestry' online Learning Journal, so that we can talk to them about it at nursery.
