

### Communication and Language

Listening Challenge:

Give your child two-part instructions to follow.

EG: Go to the kitchen and bring me two bananas.

Your child needs to listen carefully to BOTH parts of your instructions! Keep practising, everyone!

Each half term we will be sending out activities and ideas for you to do at home to support your child's learning at nursery. They will include all seven areas of learning from the EYFS curriculum. Please complete the activities with your child and then upload your photos and comments on to our Tapestry app.

We can't wait to see what you do!

### Personal, Social and Emotional Development

Talk to your child about how we compromise with others.– eg share our feelings, talk it through, listen to each other calmly, agree to take turns etc. Talk to them about how others feel when we don't compromise eg upset, not listened to.

Can your child actively compromise in practical situations with others?

### Physical Development

Talk to your child about why it is important to eat healthily every day. Discuss why we need to eat a range of fruits, vegetables, protein (meats, fish, eggs), dairy (yoghurt, milk, cheese) starchy foods (rice, potatoes, pasta) and foods high in calories (chocolate, sweets, cakes). Can your child make healthy choices from the food at home? Can they tell you why they have chosen each piece of food?

## Goodway Nursery School Sunflowers & Poppies Home Learning Spring 1 2021

### Literacy

Write a shopping list with your child. Decide together which items you would like to buy. Encourage your child to make marks or listen to the sounds and begin to write the corresponding letter.

Take the list with you when you go shopping and use it together. Have fun!

### Mathematics

Have two groups of objects eg 4 toy cars and 2 pencils.

Ask your child to tell you which group of objects has 'more' or 'fewer'.

Repeat with lots of practical experience until your child is confident with the vocabulary of 'more' and 'fewer'.

Extension– can your child tell you which number is one more or less than a number from 1-20?

### Understanding the World

Go on a Spring walk with your child. What new signs of Spring can you spot?

EG: Buds, blossom, insects, leaves on trees.

Talk with your child about the changes that occur throughout the seasons.

### Expressive Arts and Design

Using your child's favourite piece of music eg music from Frozen, theme tune to a programme, encourage your child to create a dance to the music.

Can they combine different movements?

Can they jump, twirl, turn, use their hands?

As always, please upload your Home learning to Tapestry.
